

GUIDE d'installation

DEEDGE

Déterminez puis préparez l'emplacement de votre mitigeur

Insérer la colonne dans la base cylindrique puis fixer les pieds à son extrémité

Passez le tuyau d'arrivée à travers la colonne, puis connectez-le au mitigeur

Visez la colonne au mitigeur pour fixer l'ensemble

Connectez le tuyau d'arrivée du mitigeur à votre sortie d'eau

Serrer l'écrou et visez les pieds au plan

Une fois les pieds fixés, abaissez la base jusqu'au plan

Relier la douchette au flexible puis au corps du robinet

L'installation est terminée
